

October 2017 Edition

Welcome back to another academic year, we hope you have all settled back into your schools and meeting your new classes. NEETSA have various professional development opportunities which are running for Primary and Secondary schools, these can be found at the bottom of the Newsletter.

WOMEN IN LEADERSHIP PROGRAMME

The Women in Leadership programme which we ran last year was a great success and was enjoyed by all. The Celebration session was in July and was attended by Headteachers from delegate schools to hear the presentations about delegates learning journey's and present certificates to their staff. The programme was rewarding and challenging for all who took part. The delegates gained experience and confidence in all aspects of work and personal life.

We are looking forward to delivering the programme again this year with Mark Solomons at Developing Potential, to find out more about the 2017-18 programme, please email Clair Bishop NEETSA@colchestergirls.essex.sch.uk.

Feedback from delegates on the Women in Leadership programme:

“Do it, they have been eye opening and very useful for professional development.” “It is a really good thing to do to help improve confidence and make you feel better at your job.”

“A really well-designed and structured programme that enables real reflective thinking and developed self-awareness to be able to manage feelings, behaviours and characteristics so as to be able to communicate more effectively with others.”

“It really provides a different and logical perspective on behavioural awareness that can have a huge impact on career choices.”

“Go for it! Definitely worth doing.”
